This week we start out under new circumstances to cater to our patrons. Larger store, more salespeople, better facilities for handling large shipments of dry goods, and immense quantities of goods to offer to the public.

We have grasped the situation instantly. We have the goods, we own them as cheaply as any house in America, and we will do the business.

Profit, or No Profit,

This may not read right to some people, but there are others who can see it clearly, and fully appreciate the facts meant and implied.

Some merchants count their profits with pleasure, other merchants look on the volume of their business with more pleasure. We belong to the latter class.

The volume of our business comes first, profits are a secondary consideration. Besides, a small profit on a large business gives a greater gain than a large profit on a small business.

MORAL.

Read the prices quoted on the next two columns, they are prices that have never been approached in the history of the dry goods trade in Wichita, quality considered. They are prices not made for a day, but as long as each line lasts.

We cannot name prices on all our bargains in this space, but we will name them at the different departments in the house. We handle no cheaply made auction goods, everything we sell you is warranted as represented or money refunded.

See our new store and get prices on our new goods.

A. A. POST.

ASHLAND ITEMS.

Special Dispatch to the Daily Eagle.

ASHLAND, Oct. 1.—The article in the Eagle relating to an alleged encounter between W. Gould and J. McK. Lockhead was almost a total fabrication. Mr. Gould is one of our worthy young business men, being a lawyer, and a man of quiet and peaceable habits. He had some words with Lockhead about the theft of some eggs, but neither man, nor have they been quarrelling for each other. The police were not called upon to quell any disturbance, nor was any one's attention attracted by the dispute. The article in question was, we presume, written for a joke, but such conduct as that alleged, is not simple justice that this explanation be published to place Mr. Gould right before the readers of the Eagle.

Real estate, principally farm property, is in quite active demand at this time. Many farmers are coming into the city bringing money with them for the purpose of making permanent homes. The claim holder is rapidly giving way to the farmer who carefully tills his land, and when this change is complete every county in the western portion of the state will experience a new era of prosperity.

Cattle is being shipped from this point and Englewood at the rate of from 100 to 150 cars per week. The animals are in prime condition and bring the highest price.

No tidings have yet been received from John Day, who left here for Kentucky on the 28th ult. The belief that he was foully dealt with in Wichita gains strength.

Hon. J. A. Love, of Kentucky, and Hon. P. S. Larrabee, of Stanford, will make Republican speeches here Saturday.

HOPELESSLY DEMENTED.

CHINESE BILL SIGNED.

THE PRESIDENT APPROVES THE EXCLUSION BILL.

A Message Transmitted to Congress, Embodying Recommendations of a Modification of the Bill.

He Suggests that Laborers who Have Emigrated to Their Return be Allowed to Land.

The Senate Passes the Bill Disposing of the Fort Wallace Military Reservation—Mr. Hale Offers a Recommendation Relating to Gen. Benet's Circular Requesting the Discharge of Republicans.

WASHINGTON, Oct. 1.—President Cleveland has signed the Chinese bill.

The president sent the following message to congress today: "I have this day approved house bill No. 11,330, supplementary to the act entitled 'An act to execute certain treaty stipulations in relation to the Chinese,' approved on the 8th day of May, 1882. It is so amended that some suggestions and recommendations may properly accompany my approval of this bill. Its object is to more effectually accomplish by legislation the exclusion from the country of Chinese laborers. The experiment of blending the social habits and the race idiosyncrasies of the Chinese laboring class with that of the great body of the people of the United States has been proved by an experience of twenty years, ever since the Burlingame treaty of 1868, to be in every sense unwise, impolitic and injurious to both nations. With the flight of time, the necessity for its abandonment has grown in force until those having charge of the government of the United States are resolved to modify it sufficiently to abrogate all those features and prior conventional arrangements which permitted the coming of Chinese laborers to the United States. In the modifications of prior conventions the treaty of November 17, 1880, was concluded, whereby in the first article thereof it was agreed that the United States should at will regulate, limit or suspend the coming of Chinese laborers to the United States, but could not absolutely prohibit it. Under this article of congress approved May 6, 1882, and amended July 3, 1884, suspended for ten years the coming of Chinese laborers to the United States, and the coming of such Chinese laborers as were at that time in the United States. It was, however, soon made evident that the virtual defeat of the object and intent both of the law and the treaty was being fraudulently accomplished by false pretense and perjury contrary to the act of congress approved May 6, 1882, and amended July 3, 1884, suspended for ten years the coming of Chinese laborers to the United States, and the coming of such Chinese laborers as were at that time in the United States.
